DIWAN'S OFFICE
11. JAN. 1930
No. 2994

SIR,

With reference to your letter No.G.7928/Med.dated the 4th January 1930, regarding the construction of a New Maternity Hospital at Bangalore, I have the honor to inform you that on the 28th December 29, Mr. Krumbiegal, the Executive Engineer, Bangalore, and myself had a joint inspection of the Site, and it was decided that the Hospital building should be constructed in the open space just in front of the Chamarajendra Sanskrit College, a portion of the College building itself- which is quite spacious- being retained for use as septic wards. The Layout of the several other buildings was also decided upon during this inspection, and Mr. Krumbiegal is getting up the necessary plans, which will be submitted to Government on receipt.

I have the honor to be,
Sir,
Your most obedient servant,

S. Subba Rao
Senior Surgeon.

Serial No.

64) The Senior Surgeon, the Chief Engineer, Miss Albuquerque and myself were present at the meeting held in the Chambers of the Third Member of Council in order to discuss the plans of the proposed Maternity (Women's) Hospital, Bangalore. The following ~~xxxx~~ instructions were tentatively given:-

65) 1. The hospital is intended eventually to serve as a general hospital for women and not exclusively ~~for~~ as a maternity ~~cases.~~ hospital.

66) 2. The main building. (A) This may be constructed in two stages, sufficient accommodation being provided for maternity cases only in the first stage, the construction of general wards being taken up in the second stage. Separate rough estimates to be prepared for each stage.

(B) Instead of providing domes, it would be better to adopt the architectural features of the Victoria Hospital or the Minto Hospital. The design may be revised accordingly.

(C) The operation theatre may be placed in the main building, preferably on the first floor. This will make it unnecessary to build a corridor across the courtyard. The width of the veranda may be kept at 8 feet (clear), as now designed.

(D) The size of the wards may be re-examined It was thought that the width of the rooms might be reduced to 18 feet. That by a better spacing

Note—Contn. Sheet

WD 02328--GPB—10,000—22-4-30

Serial No.

of the beds and windows, the length of the rooms could also be reduced, or alternatively, provision could be made for a larger number of beds in the same space.

(E) The possibility of providing less expensive accommodation for ~~the~~ stores, offices, etc. was also ordered to be examined.

3. Out-Patients Dispensary.

(A) This should be a fully terraced building.

(B) The veranda may be widened.

(C) An alternative design for constructing this building in the same style (in external features at least) as the out-patients dispensary in the K.R.S. Hospital, Mysore, may be prepared.

4. Quarters for the Staff.

Details and cost of the buildings required in each of the two stages may be worked out.

5. Acquisition of private properties.

Details and cost for each stage may be worked out.

6. Foundation Stone.

A suitable place for laying the foundation stone may be selected.

The Chief Engineer, Senior Surgeon, and also Miss Albuquerque were requested to

78) As desired by the Dewan, Mr. R.Ranga Rao and myself called upon Mr. K.S.Chandrasekhara Iyer yesterday. He told us that he had separately decided to give a donation of Rs.20,000/- for the construction of the out-patients dispensary in connection with the proposed Maternity Hospital in Bangalore, on the understanding that the dispensary would be named after his deceased wife. He said that Rs.15,000/ out of this amount could be placed at the disnos of Government in cash in January 1931. and As for the balance he would buy Post Office Certificates, which on (5 years') maturity would yield Rs.5,000/- but which Government might, if preferred, dispose of earlier for a somewhat smaller amount. He had no objection to an announcement being made regarding this donation when the foundation stone of the hospital is laid.

79) The General Secretary is submitting a separate note regarding another donation of Rs.5,000/- comtemplated by Mr. Chandrasekhara Iyer for laying out a park near the Mahila Seva Samaj.

I have mentioned this to Dewan yesterday. I have also written to Mr. Kennedy in this behalf.

92) At a meeting held yesterday in Mr. Chamber of Mr IIC Member, the revised plans for the hospital were further examined. Messrs S. Subbaraya (Senior Surgeon) M. G. Rangaiah (Chief Engineer) Mr Krumbiegel (C.A) and Miss Albuquerque were present.

93) The Chief Engineer reported that the estimated cost of the main building according to the revised plan, would be Rs 3 lakhs. A few further suggestions were made regarding the arrangement of the special wards & lavatories but these involved no increase of total accommodation.

94) The cost of the out patients' dispensary is roughly estimated at Rs 20,000.

~~Plans have yet to be prepared for it.~~

95) It was agreed that administrative sanction might be accorded to the scheme, taking the cost at Rs 3,20,000 exclusive of the cost of acquisition.

96) Please put up a draft G.O so that it may be ready for issue (on receipt of the C.E's report) at least 3 or 4 days before the ceremony for laying the foundation stone.

R. 695
Sd/ 21/8/30

While I do not wish to interpose any obstacles in the ma-turing of this useful project, I have to plead for caution in Govt: comitting themselves to provide their share of cost in a definite period of time.

The accounts of last year are likely to show a heavy deficit in the Revenue transactions and the progress of the latter in the current year indicates no hope of improvement.

90) There is no money in the Special Non Recurring Reserve to fall back upon, to finance the Govt: share of cost as and when it would be required.

The current years budget of Major works. Civil buildings provides

NOTE—Contn. Sheet

WD 02553--50,000—GPB—8-7 30

from an outlay of less than Rs 4 lakhs and I do not think there is any reasonable prospect of supplementing this grant in the next few years, unless the State is able to secure new sources of revenue by way of remission of subsidy or share in the customs revenue &c -

There are very heavy commitments already undertaken for which funds have to be allotted out of the limited grant that might be made available to the P.W.D for New Major Works (civil) -

The reconstruction of the Palace Frontage is a work of magnitude, the financing which the future revenues are mortgaged -

It has now come to the notice of the Finance dept that the shifting of the Hebbal Range to another locality on administrative and other considerations is likely to involve civil in new expenditure of Rs two lakhs -

The construction of the Shimoga General Hospital cannot perhaps be put off much longer - There is an insistent demand for starting this work -

The General Hospitals at Hassan and Chickmagalur are still in progress and I am not sure that provision will not be required to be made for their completion in the coming year -

Whether the New Gusht Mansion works will not require any further allotments in the budgets of the next few years is another aspect to which I had better make a reference in this connection -

In the light of the foregoing statement, I feel considerable hesitation to support any scheme of finance for the completion

of

General and Revenue Secretariat

File No. of 193 .

Serial No.

this project within any specified no. of years -
It is necessary that it should be made possible to take up the work in easy stages, having due regard to the financial exigencies of the Budget -
After Administrative sanction is accorded to the project, the provision of funds should follow, and I have therefore ventured to make a few observations touching the financial implications of the proposal under consideration.

NOTE—Contn. sheet.

WD 066—GPB—30,000—26-7-29

Final Note by the Second Member of Council.

Subject:— Construction of New Maternity Hospital, Bangalore.

The present Maternity Hospital building in Bangalore was constructed in the year 1879. In spite of large additions made from time to time to the buildings, the accommodation available therein has been found insufficient for the increasing number of women resorting to the institution for maternity aid. The question of erecting a more commodious building in a more centrally situated locality has long been under the consideration of Government. In July 1929 the Lady Medical Officer of the Maternity Hospital with certain other ladies and gentlemen were permitted to issue an appeal for funds for the construction of a new Hospital building. A Committee of prominent ladies and gentlemen was constituted to collect donations and an appeal was issued therefor. It is now reported by the Secretary of the Committee that a sum of over a lakh of rupees has already been subscribed and that promises to the extent of half a lakh more have been received. The Committee urged, in these circumstances, that the scheme for the construction of a new Hospital might now be sanctioned and necessary action taken. It is proposed to construct the building on a site near the Chamarajendra Sanskrit College in the Fort which owing to its close proximity to the Victoria and Minto Ophthalmic Hospitals, is considered the most suitable for the purpose. The Chief Engineer reports that the estimated cost of the proposed buildings, including the out-patient block would amount to Rs.3,25,000 approximately, exclusive of the cost of acquisition of the site.

2. The proposal has been agreed to by the Dewan and the other Members of Council, and orders have been issued according administrative sanction to the construction of the building. I solicit His Highness' gracious approval of the action taken.

The foundation stone for the new building was laid by His Highnes.

the Yuvaraja on the 26th August 1930.

To

CHIEF SECRETARY
3 JULY 1930

The Chief Secretary to the Government of His Highness
the Maharaja of Mysore, BANGALORE.

Sir,

In connection with the construction of a New Maternity Hospital at Bangalore, I have the honor to forward, for the orders of Government, copies of letter No. 78 dated the 27th June 1930 and its enclosure received from the Secretary, New Maternity Hospital Fund Committee, intimating that the Committee are hopeful of raising about Rs. 1,35,000/- towards this fund from Public Donations. They also consider that," The time is now ripe for obtaining administrative sanction of Government for the New Maternity Hospital Building ", and that early steps should be taken to lay the foundation stone which will enable them to obtain the promised subscriptions much more quickly.

The Plans received from the Consulting Architect were returned countersigned by me on the 26th June 1930, with a request for the early preparation of the estimates.

I have the honor to be,

S i r,

Your Most Obedient Servant,

S. Subba Rao

SENIOR SURGEON, M.G.

T.V.L.

Letter No. D.O. 78 dated the 27th June 1930 from the Secretary, New Maternity Hospital Fund Committee, Bangalore, to the Senior Surgeon in Mysore, Bangalore.

-----:0:-----

50

I am desired by the signatories to the appeal issued on behalf of the New Maternity Hospital Fund to place the following facts before you for submission to Government and Obtaining their orders thereon.

In response to the appeal issued and personal efforts of the Committee to-gether with Mr. Ananthasubramanyam and Mrs. Ramaswamy, who have co-operated as additional members they have been able to get the following subscriptions till now.

1.	The Bangalore City Municipality.	Rs. 25,000
2.	The District Board, Bangalore.	25,000
3.	Mr. N. Guruswamy.	10,000
4.	" B.G.Krishna Murthy.	10,000
5.	" Sajjan Rao.	5,000
6.	Mrs.C. Venkatamuniah Setty.	5,000
7.	" C.S.Doraswamy Iyer.	5,000
8.	Messrs. E.S.Venkataraman & Bros.	3,500
9.	Mr. C. Krishniah Chetty.	1,000
10.	" Hariyanna.	1,000
11.	" D. N. Sirur.	500
	Total.	Rs. 91,000

In addition to the above subscriptions they have since received a letter from the Mysore Spinning and Manufacturing Company, copy of which is enclosed, agreeing to donate a sum of Rs. 5,000 on behalf of the two mills in Bangalore. The Binny Mills have also been approached and it is anticipated that they are likely to subscribe a sum of Rs. 5,000. There are one or two gentlemen who are likely to donate largely and the exact amount which they are likely to subscribe will be known before the end of the month. The Committee are hopeful of raising in addition to a lakh of rupees they have now obtained, another Rs. 30,000 or 35,000. Against the sums donatedm a sum of Rs. 10,000 paid in by Mr. Krishna Murthy, has got to be transferred from the Treasury to this account and a further sum of Rs. 10,000 has since been paid by Mr. N. Guruswamy. The amounts due by the Municipality and the District Board will be paid shortly. The Committee expect to collect the other subscriptions as soon as the Foundation Stone is laid.

The Committee consider that the time is now ripe for obtaining the administrative sanction of Government for the New Maternity Hospital Building and get necessary plans and estimates prepared. They also desire that steps should be taken to have the Foundation Stone laid at a very early date as this will enable them to obtain the subscriptions paid in as also raise more.

Rs. 25,000 has been received from the District Board.

-----:0:-----

Letter No. 881/1 dated 13th February 1930 from the Mysore Spinning and Manufacturing Company, 9 Bank Street, Fort, Bombay, to the Lady Medical Officer, Maternity Hospital, Bangalore.

With reference to your letter of the 22nd January 1930, we have to inform that the same having been placed before the Directors of both of Myaore and Minerva Mills, they were pleased to donate jointly Rs.5,000 on account of both the Mills towards a ward of about 5 beds on condition that the employees of these two mills shall have preference to the right of use for these beds. It is also understood that the Mills will not be liable for payment of any recurring expenditure. On your confirming the above, a cheque for Rs. 5,000 will be sent to you.

The Senior Surgeon, the Chief Engineer, Miss Albequerque and myself were present at the meeting held in the Chambers of the Third Member of Council in order to discuss the plans of the proposed Maternity (Women's) Hospital, Bangalore. The following instructions were tentatively given:-

1. The hospital is intended eventually to serve as a general hospital for women and not exclusively as a maternity hospital.

2. The main building. (A) This may be constructed in two stages, sufficient accommodation being provided for maternity cases only in the first stage, the construction of general wards being taken up in the second stage. Separate rough estimates to be prepared for each stage.

(B) Instead of providing domes, it would be better to adopt the architectural features of the Victoria Hospital or the Minto Hospital. The design may be revised accordingly.

(C) The operation theatre may be placed in the main building, preferably on the first floor. This will make it unnecessary to build a corridor across the courtyard. The width of the veranda may be kept at 8 feet (clear), as now designed.

(D) The size of the wards may be re-examined It was thought that the width of the rooms might be reduced to 18 feet. That by a better spacing

f the beds and windows, the length of the rooms ould also be reduced, or alternatively, provision ould be made for a larger number of beds in the. ame space.

(B) The possibility of providing less expensive accommodation for the stores, offices, etc. as also ordered to be examined.

3. Out-Patients Dispensary.

(A) This should be a fully terraced building.

(B) The veranda may be widened.

(C) An alternative design for constructing this building in the same style (in external features at least) as the out-patients dispensary in the K.R.S. Hospital, Mysore, may be prepared.

4. Quarters for the Staff.

Details and cost of the buildings required in each of the two stages may be worked out.

5. Acquisition of private properties.

Details and cost for each stage may be worked out.

6. Foundation Stone.

A suitable place for laying the foundation stone may be selected.

The Chief Engineer, Senior Surgeon, and also Miss Albuquerque were requested to

go into these questions and meet the Third Member again in about a week with the further information collected by them.

Immediate.

R. 1276
Medl 14 8-29-8

1st August 30.

Dear Dr. Subba Rao,

Could you kindly propose two alternative dates for the laying of the foundation stone of the new Maternity Hospital, Bangaloro, after consulting, if necessary, the Secretary of the Ladies Committee?

Yours sincerely,

Dr. S. Subba Rao, B.A., M.B.C.M., etc.,
Senior Surgeon in Mysore.

Dear Sir,

The Senior Surgeon, in consultation with the Secretary of the Committee of the New Maternity Hospital Bangalore, has proposed that the ceremony of laying the foundation stone for the hospital might be arranged for one of the following dates:—

26th August,
28th August,
or 30th August 1930.

I am to request that you may be so good as to ascertain His Highness the Yuvaraja's pleasure in the matter.

If permitted, the Senior Surgeon and myself will wait upon His Highness and furnish any further information that may be required.

Yours sincerely,

Dear Dr. Subba Rao,

As suggested in your D.O.letter No.C.211 dated the 4th August 1930, the alternative dates suggested by you for the ceremony of the laying of the foundation stone for the new Maternity Hospital, Bangalore, have been communicated to the Private Secretary to His Highness the Yuvaraja. I have also informed that, if permitted, you and I will wait upon His Highness and furnish any further information that may be required.

I am to enquire whether a suitable place for laying the foundation stone has been selected and what further information has been collected on the points mentioned in the memo forwarded with my letter No.G.1272 dated 1st August 1930.

Yours sincerely,

Dear Mr. Madhavarao,

I am in receipt of your D.O. No. G 1715/ med 148-29 dated 8th aug 1930, regarding the New Maternity Hospital Bangalore. Mr. Krumbeigl, Mr. Rangayya and myself met on the 1st of august and discussed the various points regarding the alterations necessary to bring down the cost of the buildings. Mr. Krumbeigl promised to prepare a modified plan, and fix up the

exact situation of the foundation stone.
I am writing to him to expedite
the preparation of the new plan to
and to send the same to you direct.

Yours Sincerely
S. SubbaRao

G/1932-8/12.8.30. 12th Aug.1930.

Dear Dr. Subba Rao,

I have just heard from the Private Secretary to His Highness the Yuvaraja that it would be convenient to His Highness if the ceremony of laying the foundation stone for the new Maternity Hospital at Bangalore could be arranged for the 25th August 1930.

Would you kindly have the necessary arrangements made and send me a list of the points on which you propose to speak, when inviting His Highness to lay the foundation Stone? A short note giving the history and statistics of the present Maternity Hospital, as also the principal features of the new institution and the names of the important subscribers to the building fund may also kindly be sent at your very earliest convenience.

Yours sincerely,

MM

A short note on the Bangalore Maternity Hospital is put up as directed.

13/8

Chief Secy)

CHIEF SECRETARY
13 AUG. 1930

with a munificent donation from the late R. B. Yele Mal. Lalpha Setty

The present Maternity Hospital building was built in the year 1879 and opened for work early in the year 1880. The object of the institution at the time was, in the words of Dr. Henderson, " to have a place of refuge and aid to women in child-bed who had no proper homes or whose cases were difficult and required unusual assistance".

Page 23 of the Report of 1881.

In 1881 the total number of labour cases handled in the hospital was 47 and other cases only 6 ; and the total expenditure on the institution was barely Rs.946. The average daily number of out patients was ~~only~~ 13.

Flag Q

From this small beginning, the Hospital rose in popularity till 1886 when a need was felt for building separate wards for caste patients. In this year the number of lying-in cases treated amounted to 137. There was also a considerable increase in the year in the number of out-patients totalling 7373. The cost of the institution also increased to nearly Rs.4,900/-.

In the following year, a need was also felt for attaching a separate block for treating contagious diseases among women. Accordingly arrangements were made in that year to construct a separate building for the purpose.

78

96

Twelve years later, the number of labour cases treated was 411 and other cases 61. The number of out-patients was nearly 13,000 and it was reported that the people were no longer afraid to resort to this Hospital as they used to do before. The total cost of the institution in this year was nearly double that in 1886.

Flag R.

In 1909, the in-patient labour cases treated were 410 in number and other cases 284, although the number of out-patients remained about the same as during the previous decennium. There was also an appreciable increase in the total cost of the institution which amounted to a little more than Rs.14,000/-.

In the next two decenniums there was a marked increase in all directions as shown by the following figures :-

Year.	No. of in-patients.		Out-patients.	Cost. (roughly)
	Labour cases.	Other cases.		
1919	735	219	17,047	Rs. 21,500
1929	Total number of in-patients = 2600		17,033	41,549

A demand for the increase of accommodation in the hospital due to the ever-increasing influx of people resorting to the institution was coming

79

coming up before Government from time to time as a result of which, a separate Operation theatre was built in 1925 and the two wings of the Indian ward were extended on either side in 1929. The extent of the popularity of the institution will be evident from the fact that the labour ward, the - sceptic ward and the Gynic ward were added with the aid of handsome donations from Messrs. Iswarappa Holiappa Bulla and K.S.Iyer and Miss. Govindarajulu respectively in the course of the last few years. Similar other donations had also been received for hospital equipment. The present position is that the accommodation now available in the hospital is quite inadequate to meet the demands made on it. It is also understood that the present situation of the building is not conducive to the health of the in-mates owing to congested surroundings and other causes. There is the further inconvenience of this institution being quite aloof from the other major institutions like the Victoria Hospital and the Minto Opthalmic Hospital. A need has therefore been felt to shift the building to some other place in the Fort in the neighbourhood of such larger institutions. The matter was taken up by public spirited ladies and gentlemen who kindly undertook to collect subscriptions in aid of the

81

projected new building, with the result that already ~~as much as~~ over a lakh of rupees has been subscribed for and promises to the extent of nearly half a lakh have been received. Among the principal donors who contributed a sum of Rs.20,000 and over may be mentioned the District Board and the City Municipality of Bangalore and Mr. K.S. Chandrasekhara Iyer. The new Maternity Hospital will be designed to provide for 200 beds and for a separate out-patients dispensary. The idea is to make this institution not only a maternity but also a women's hospital

Subject:- New Maternity Hospital in the Fort at Bangalore

Sir,

With reference to your No.G.1272-3/Med.148-29-7 dated the 1st August 1930, I have the honour to inform you that the rough cost of the main building based on the plinth area of the modified plan received from the Consulting Architect and of the kitchen and out-patient block on the base of original plans, will amount to Rs 3,00,000 and Rs 25,000 respectively. This is exclusive of the cost of acquisition of vacant lands and properties and the cost of residential and other necessary buildings to be built.

The elevations and sections for the main building and the revised plans of the out-patient block and those of the residential buildings are not yet received from the Consulting Architect. These will be expedited and detailed estimates for all the buildings as well as the properties to be acquired will be forwarded for sanction, in due course.

2. In the meanWhile, as the date for laying the foundation stone by His Highness the Yuvaraja has been fixed as the 26th instant, administrative sanction of Government may kindly be obtained

obtained for the scheme. The approximate cost of the several items involved as can be foreseen at present is noted in the margin.

3. The vacant land on which the foundation stone is to be laid is reported to have been valued at about Rs 13,000. There is a provision of Rs 21,000 in the Public Works Budget for the acquisition of certain properties in the Fort which were originally intended for the Medical School. This can be utilised for acquiring this vacant land. The Municipal Commissioner has been requested to take possession of the site and hand it over immediately to the Executive Engineer, Bangalore Division.

I have the honour to be,

Sir,

Your most obedient servant,

M G Rangaiya

3. Letter No. 2845 dated 19-8-30 from the Chief Engineer in Mysore stating that the cost of the buildings exclusive of the cost of acquisition of vacant lands & properties is estimated at about Rs. 3,25,000/-.

Order No. G2440-4.

Dated, Bangalore, 25 August 1930.

The present Maternity ~~Building~~ Hospital which was built so far back as 1879 being found to be not quite adequate in spite of large extensions made to it, to meet the growing demands of the increasing number of women seeking maternity aid therein, the question of erecting a more commodious building in a

In spite of large additions made from time to time to the buildings of the Maternity Hospital at Bangalore, the accommodation available therein has been found insufficient for the increasing number of women resorting to the institution for maternity aid.

87

a more centrally situated locality has engaged the attention of Government for some time past, but it was, ~~however,~~ not till July 1929 that any tangible action could be ~~was~~ taken in the matter. In that month, a meeting of some public spirited ladies and gentlemen was held in the Office of the Senior Surgeon at which it was resolved to call for public subscriptions for constructing a new building and a Committee of prominent ladies and gentlemen was also constituted to collect donations. An appeal for funds was thereafter issued by the Lady Medical Officer in charge of the Maternity Hospital. It is now reported by the Secretary to the Committee that a sum of over a lakh of rupees has already been subscribed and that promises to the extent of Rs. ½ lakh more have been received. The Committee urge, in these circumstances, that the scheme for the construction of a new Hospital may now be sanctioned and necessary further action taken. It is proposed to construct the building on a site near the Chamarajendra Sanscrit School in the Fort, which owing to its close proximity to the Victoria and Minto Ophthalmic Hospitals is considered the most suitable for the purpose.

The Chief Engineer reports that the estimated cost of the proposed buildings including the out-patient block would

Read

Government Order No.P.2761-4/Medl. 234-29-11 dated the 2nd September 1929 authorising the issue of an appeal for funds for the construction of New Maternity Hospital Building at Bangalore.

2. Letter No. C. 211-24- dated the 3rd July 1930, from the Senior Surgeon in Mysore forwarding a copy of letter No.76 dated the 27th Jun 1930, received from the Secretary, New Maternity Hospital Fund Committe reporting the progress made in the collection of public donations and requesting administrative sanction for the construction of the buildin to facilitate further subscriptions.

3. Letter No.2846 dated 19th August 1930, from the Chief Engineer in Mysore stating that the cost of the buildings exclusive of the cost of acquisition of vacant lands and properties is estimated at about Rs.3,20,000/-.

Order No.P. 2440-4/Med 148-29-14

Dated, Bangalore, 25th August 1930.

In spite of large additions made from time to time to the buildings of the Maternity Hospital at Bangalore, the accommodation available therein has been found insufficient for the increasing number of women resorting to the institution for maternity aid. The question of erecting a more commodious building in a more centrally situated locality has engaged the attention of Government for some time past, but it was not till July 1929 that any tangible motion could be taken in the matter. In that month, a meeting of some public spirited ladies and gentlemen was held in the office of the Senior Surgeon at which it was resolved to call for public subscriptions for constructing a new building and a committee of prominent ladies and gentlemen was also constituted to collect donations. An appeal for funds was thereafter issued by the Lady Medical Officer in charge of the Maternity Hospital. It is now reported

would amount to Rs. 3,25,000/- approximately.

Government are accordingly pleased to accord administrative sanction to the construction of the building on the site selected at an estimated cost of Rs. 3,25,000 exclusive of the cost of acquisition.

The Chief Engineer is requested to expedite the submission of the final plans and estimates for the buildings in consultation with the Senior Surgeon and the Consulting Architect.
